Re: Application for the Masters Program Bioinformatics

To whom it may concern,

I am currently finishing my bachelors degree for bioinformatics at the FU Berlin and would like to continue with the masters program.

The only remaining item to complete my bachelors degree is the bachelors thesis, which I have just started with professor Martin Vingron as my advisor and should complete by 30.09.2020.

Please note that I have finished the course “Algorithimische Bioinformatik” in WS19/20, which is required for this application. While I have passed the course, the grades are not yet available in an official transcript.

Since I would transition within FU Berlin I attached the two documents required for this application according to my department:

1. “Zweidrittelbescheinigung”
2. “High School Diploma”, which substantiates 5 units (extended subject) of English studies which in Israel is for 8 years.

Please don't hesitate to let me know if additional documents are required.

Kind regards,

Yiftach Kolb (Matrikelnummer: 5195763)
